

connecting globally focused lives

The YFU USA Alumni Engagement division strives to provide a comprehensive program with the benefits and opportunities of lifelong learning in the YFU community to serve our more than 50,000 American alumni, host siblings and international students who now reside in the USA and beyond. Organizationally we work to:

- Find and engage alumni.
- Create and support a national/regional/local communication network.
- Offer personal and volunteer opportunities to all alumni.
- Strengthen programs by integrating alumni into the YFU program process.
- Provide a robust platform, both online and with physical presence, which facilitates and encourages membership.

Campus Ambassador Program members are a prestigious group of young alumni that are selected after a competitive application process. As a continuation of their exchange experience, they mentor prospective study abroad and international students, and share YFU exchange opportunities within their schools and communities across the country.

YFU USA is building a network of **local alumni chapters** led by volunteer chairs throughout the country. These chapters create opportunities for alumni to gather together and offer a chance for reconnecting, professional networking, personal growth, and, of course, giving back to YFU. There are currently seven chapters across the country:

Interested in being a chapter chair? Contact us at alumni@yfu.org.

In the very near future, YFU alumni will have access to an exclusive Online Alumni Portal which offers means of reconnecting, alumni resources, discounts on registration fees for official YFU USA events and reunions, and much more. Want more information? Contact the YFU Director of Alumni Engagement at alumni@yfu.org for details.
